

DEMSUN[®]

UNIVERSAL HYBRID SEALANT ADHESIVE

Highly thixotropic: Suitable for horizontal and vertical joints.
Eco-friendly, free from isocyanate, solvent, acids and halogens.

Excellent primerless adhesion to numerous porous and nonporous substrates.

**EXCELLENT
UV RESISTANCE**

**OVER
PAINTABLE**

**Connection joints in
sheet metal fabrication,
sealing of HVAC
systems.**

**Elastic bonding in
vibrating construction
elements.**

TECHNICAL PROPERTIES

Skin formation	: 15-20 min (23°C and %50 R.H.)
Curing Rate	: Approx. 2,5 mm/ 24 hr (23°C and %50 R.H.)
Tensile Strength	: 1,5 – 2,0 N/mm ²
Elongation At Break	: ≥ % 120
Sagging	: 0 mm
Application Temperature	: +5°C to +40°C
